

RHU CirB-RNA

Biomarkers of functional cure of Hepatitis B

Scientific Workshop

When

December 11th, 2018

From 2:00 pm to 5:30 pm

Where

Lyon - 151 cours Albert
Thomas - Conference room

Antonio CRAXI,
Palermo

Critical appraisal of the literature on the natural history of Hepatitis B.

Pietro LAMPERTICO,
Milan

International recommendations for the treatment of Hepatitis B.

Carlo FERRARI, Parma
Immunologic mechanism of viral persistence.

Fabien ZOULIM, Lyon
Novel antiviral approaches to cure HBV infections.

Marintha HEIL,
Pleasanton
Novel molecular assays for viral Hepatitis B & D.

Maura DANDRI,
Hamburg
HBV infection and treatment in humanized mouse models: insight from novel biomarkers.

Massimo LEVRERO,
Lyon
State of the art on circulating viral RNAs as a biomarker of functional cure in chronic Hepatitis B patients.
